

KIRBY MOORE
WELD COUNTY 4-H ALUMNI

4-H gave me skills that I use every day as an educator. The public speaking I learned through demonstrations, contests, and working with the Youth Executive Council helped me to become a better teacher. The record keeping skills I learned through project record books have aided me both professionally and within our household. The leadership and responsibility that I gained as an officer, volunteer, and representative on 4-H trips have served me well throughout my life. Many of the friendships formed have lasted a lifetime. One of the greatest assets to me was the role modeling of the adults who give so much time to 4-H. They exhibited skills that embody what it means to be a good teacher, mentor, and volunteer.
