

THE \$2 MILLION PROJECT

A letter from the Board of Weld County Commissioners

For generations, the Weld County 4-H program has taught leadership skills to youth of all ages and from all backgrounds. The experiences 4-H provides are invaluable and are an important part not only of Weld County's history but also its future.

Studies show that individuals involved in 4-H programming are more likely to earn higher grades in school, are more likely to attend college and are more likely to give back to their community. For these reasons, the Weld County Board of

Commissioners is proud to support the endeavor to raise \$2 million to endow a 4-H position.

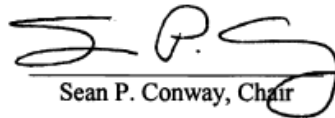

This endowment will ensure that the valuable programming of 4-H will not be lost for future generations but rather preserved, maintained and expanded to even more youth in Weld County. By building, maintaining and dedicating funds in perpetuity to a 4-H leadership position, the Weld County CSU Extension Office will ensure 4-H programming for generations to come.

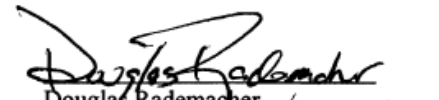

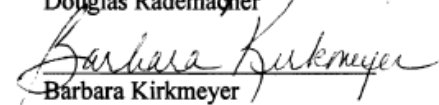

Please strongly consider donating to this project. The benefits of youth engaged in 4-H extend beyond the individual participant. 4-H benefits us all by teaching kids to become confident and knowledgeable leaders who have an appreciation for the land, their community and their future.

Sincerely,

BOARD OF COUNTY COMMISSIONERS

William E. Garcia, Pro Tem
