

Ashley Terrell

Ashley is the daughter of Dustin and Sherry Terrell of LaSalle, CO. She was a 10-year member of Horse Whisperers 4-H Club doing the Horse project. She also participated in Market Swine. She is a freshman at South Plains College in Levelland, TX studying Ag business. She chose Ag Business because she hopes to someday make a difference in the Agricultural industry specifically the horse industry. She comes from multiple generations of farmers and ranchers that have made a living in agriculture and it has always held an interest for her. By growing up around such an opportunistic lifestyle, she has grown a love and curiosity for the opportunities that it has in store. An Ag degree will give her the tools to help her be successful in a business whether it be her own or someone else's as well as keep the option open as to what industry she would want to go into.

Ashley's ideal future would include working for a business that works with breeding and performance horses, and making an impact in the horse industry. She would like to acquire a position that is promotable so that she would have the opportunity to move up in the company to a management position one day.

Ten years ago Ashley was an 8-year old little girl with a passion for horses. Today she is an 18-year old with a passion and love of horses. She was originally encouraged by a family friend to join 4-H and over the course of those 10 years. She has shown four different and very special horses and eight head of market swine. Through 4-H she learned numerous life skills that have not only helped her in 4-H but has also helped here in the rodeo arena and outside the arena in the game of life.

Being involved in 4-H has helped Ashley in learning skills that she has been able to use in various areas. The experiences she gained as her club's President taught her leadership skills as well as how to correctly run meetings and experience in talking to people. It has taught her the importance of building relationships with others as well as respect and problem solving. Being a good role model in a leadership position may not seem like a big deal but it has a huge impact on the kids that look up to you. 4-H has also been a great promoter of community service and Ashley has been thankful to have been involved in the variety of projects that make a difference.

Ashley Terrell is the recipient of the Norgren Family Memorial Scholarship
